## SUMMARY

- Geographer and cartographer, Head of Cartography and Remote Sensing Division at the Norwegian Center for Global Analyses (RHIPTO)
- Journalist-cartographer at Le Monde
- Former head of cartography at UNEP-GRID/Arendal
- Author of Watergrabbing Atlas
- Accurate maps with a deep eye for their design

## PROFESSIONAL EXPERIENCE

### **RHIPTO - NORWEGIAN CENTER FOR GLOBAL ANALYSES** / 2014-present

Head of Cartography and Remote Sensing Division.

Coordinate the production of maps and info-graphics for print and web for the organisation. Data research, data analysis, data visualisation, geo-processing, data design, map design, cooperating with a multi-disciplinary and multicultural team of experts and analysts.

RHIPTO maps are often used in briefs sent directly to various UN agencies, including the UN General Council, and to various European and North American governments. We have several contributors in highly sensitive regions (conflict, crime, environmental crimes, peacekeeping, terrorism) that provide first hand information, we map it up to present concise and effective information to UN and governments.

### **LE MONDE** / 2018-present

Journalist-cartography

Production of maps and info-graphics for print and web for the organisation: data research, data analysis, data visualisation, geo-processing, data design, map design. Author of several «Page Géopolitiques» a prestigious weekly full page map on various international geopolitical issues, together with the dynamic Infographics Department of the newspaper

### **UNEP/GRID-ARENDAL** / 2009-2014

Head of Cartography
